

LIFETIME RISK OF DEVELOPING CANCER¹

Talk with your Colonial Life benefits counselor to learn more.

58% of cancer PATIENTS SURVEYED reported being **distressed** about their **finances** during treatment.²

The reality of cancer

Hopefully, you and your family will never face cancer. If you do, it's important to have financial protection to help with treatment and recovery costs that typically aren't covered by most medical insurance plans.

Risk factors

Some look to family history to determine the risk of developing cancer, but that doesn't tell the whole story. While heredity and environmental factors can play a role, cancer can impact any of our lives.

[Inherited genetic factors play a major role in only about 5 to 10 percent of all cancers.³]

Treatment and recovery costs

Fortunately, more people are surviving cancer thanks to early detection and more aggressive treatments. However, America's workers are often unprepared for cancer costs and the loss of income that can occur during and after treatment.

[Over a third of cancer patients with insurance receiving anticancer therapy were billed for out-of-pocket costs that were greater than expected.⁴]

Protect your way of life

Cancer insurance offers benefits that can help you pay for cancer-related expenses that medical insurance may not cover, such as:

- Loss of income
- Deductibles and co-pays
- Out-of-network treatment
- Lodging and meals
- Child care

Cancer insurance may also provide a benefit for covered cancer screenings and wellness tests to encourage early detection.

ColonialLife.com

To encourage early detection, our cancer insurance offers benefits for wellness and health screening tests.

For more information, talk with your benefits counselor.

Part one: Cancer wellness/health screening

Provided when one of the tests listed below is performed after the waiting period and while the policy is in force. Payable once per calendar year, per covered person.

Cancer wellness tests

- Bone marrow testing
- Breast ultrasound
- CA 15-3 (blood test for breast cancer)
- CA 125 (blood test for ovarian cancer)
- CEA (blood test for colon cancer)
- Chest X-ray
- Colonoscopy
- Flexible sigmoidoscopy
- Hemocult stool analysis
- Mammography
- Pap smear
- PSA (blood test for prostate cancer)
- Serum protein electrophoresis (blood test for myeloma)
- Skin biopsy
- Thermography
- ThinPrep pap test
- Virtual colonoscopy

Health screening tests

- Blood test for triglycerides
- Carotid Doppler
- Echocardiogram (ECHO)
- Electrocardiogram (EKG, ECG)
- Fasting blood glucose test
- Serum cholesterol test for HDL and LDL levels
- Stress test on a bicycle or treadmill

Part two: Cancer wellness — additional invasive diagnostic test or surgical procedure

Provided when a doctor performs a diagnostic test or surgical procedure after the waiting period as the result of an abnormal result from one of the covered cancer wellness tests in part one. We will pay the benefit regardless of the test results. Payable once per calendar year, per covered person.

Waiting period means the first 30 days following the policy's coverage effective date during which no benefits are payable.

The policy has exclusions and limitations which may affect any benefits payable. For cost and complete details of the coverage, see your Colonial Life benefits counselor. Coverage may vary by state and may not be available in all states. Applicable to policy form CanAssist (and state abbreviations where applicable, for example: CanAssist-TX).
